Aboutmui.mui

Super class

Window.mui

Background

This class can be used to display a MUI about window in MUI applications. Add a "Project/About MUI…" menu item and make it do something like this:

```
aboutwin

  aboutwin  AboutmuiObject
    MUIA_Window_RefWindow obj
    MUIA_Aboutmui_Application MyAppObject
    End

aboutwin
  setaboutwin MUIA_Window_Open TRUE
```

You don't have to care about the window any longer, it will take care about closing itself and will get disposed when the application is removed.

Attributes

Attribute	Version	ISG	Type
MUIA_Aboutmui_Application	V11	I..	Object *

MUIA_Aboutmui_Application

NAME

MUIA_Aboutmui_Application — V11 [I..], Object *, 0x80422523

FUNCTION

Inform the Aboutmui object about the application. If you don't specifiy this, Aboutmui class will just create a normal window object and will leave the responsibility about closing itself to the programmer.
