# Fontpanel.mui

## Super class

[Panel.mui](#)

## Background

Fontpanel class is MUI's replacement for ASL font requesters to provide the extended font styles, sizing and coloring. Furthermore it offers the possibility to sort the fonts into several font families, including user defined families.

## Attributes

Attribute	Version	ISG	Type
<a href="#">MUIA_Fontpanel_ShowCollection</a>	V20	I..	LONG

## MUIA\_Fontpanel\_ShowCollection

### NAME

[MUIA\\_Fontpanel\\_ShowCollection](#) — V20 [I.], LONG, 0x804225ea

### SPECIAL INPUTS

- MUIV\_Fontpanel\_ShowCollection\_All
- MUIV\_Fontpanel\_ShowCollection\_FixedWidth
- MUIV\_Fontpanel\_ShowCollection\_Bitmap
- MUIV\_Fontpanel\_ShowCollection\_TrueType
- MUIV\_Fontpanel\_ShowCollection\_User

### FUNCTION

Usually a font panel will allow the user to select a font from all standard and user defined font families. However, sometimes it might be necessary to restrict this selection to i.e. TrueType fonts when bitmap fonts cannot be used for application specific reasons.

This attribute allows to specify the types of font families to select from. Just pass a logical OR of the suitable

MUIV\_Fontpanel\_ShowCollection\_#? values.

## EXAMPLE

```
FontpanelObject
  MUIA_Fontpanel_ShowCollection MUIV_Fontpanel_ShowCollection_TrueType
End
```
